Powerful Percussion Action for Fast Spike Driving

Introducing the New Stanley Spike Driver ...

The Next Generation Stanley Hydraulic Spike Driver's come equipped with lower solid foot for added durability and performance. Bundled with these changes is the new branding color scheme and leg guards for added comfort during tool operation.

- Solid foot base for added durability.
- Anti-vibration handles for smooth tool operation.
- Feathering on/off valve for added controllability.
- 1300 blows per minute for maximum performance.
- Two length options – 28.75 or 32.25 inches for additional convenience.
- Hose whips and couplers included.

STANLEY®

LABOUNTY UNIVERSAL PROCESSORS

The LaBounty Universal Processors SV Series are ideal for demolition, road and bridge reconstruction and recycling operations. Up to four interchangeable jaws are offered per model, providing maximum versatility.

MAX-FORCE SERIES BREAKERS

The Stanley MBX Series Breaker models feature industry leading design innovations including a patented valving system which provides unmatched performance and durability. A unique, direct-acting nitrogen chamber that results in increased impact force with the simplicity of only two moving parts, and a rugged housing and power-cell designed to excel in the most demanding applications. Stanley's MBX Series Breakers are ideal for construction, demolition and quarry applications.

HAND-HELD HYDRAULIC TOOLS

Hydraulic Hand-held Tools from Stanley increase job versatility and gets the job done quickly, effectively, and quietly. Hydraulic power is the most efficient power of any traditional power source with the highest power-to-weight ratio of any power tool. Our hand-held line of tools can be powered from a variety of hydraulic power sources such as backhoes, aerial lifts, dump trucks and Stanley Hydraulic Power Units, including our mobile power unit – the TracHorse.
